

PRODUCT

OVERVIEW

PALLET PADS

Recycled Chipboard Sheet Designed To Protect Your Products.

Pallet pads provide a protection by placing them on the base of the wooden pallet. This will prevent products from the bulging between the gaps. The material we supply is 100% Recycled and reusable.

- COMPARISON -

PALLET PADS	CORRUGATED PADS
Consumes minimal inventory	Low moisture resistance
Does not collapse under weight	Can crush under the weight of heavy products
Cost effective	Low durability
Punctures do not reduce load capacity	Punctures reduce load capacity

- FEATURES -

Widest variety of caliper
in the industry

Flat sheets

Sourced from FSC & SFI
certified paper mills

California weight &
measure certified
products
